

Financial Agreement
Updated 06/2019

It is likely that **I will be terminating my contracts with insurance panels** during the 2020. Clients will continue to have the option to pursue reimbursement from their insurance carrier to defray costs of services. As a courtesy to clients, I will endeavor to set up the financial side of your account in my practice to automatically and electronically submit claims to some major insurance carriers. Going forward, however, the financial arrangement for all clients within my practice will be handled directly between my practice and my client, in a **private pay capacity only**.
