

Practice Portal

Therapy Appointments (aka PsychSelect) allows us to gather pertinent psycho-social information, trade encrypted e-mails, send appointment reminders, manage your financial account, and register insurance and personal health information through a secured environment. As I prefer to schedule via email or in person, the **scheduling option is disabled**.

Login for the first time: [Find your therapist - TherapyAppointment](#)

URL: <https://www.psychselect.com/cgi-bin/therapyappointment/login.cfm?practitioner=6343>

Find: Rebecca C. Davenport LCSW, PA

Once you log into your account, please be sure to fill out each section of your chart in its entirety.

- Submitting an email address in your portal gives me permission to send encrypted statements and email through the portal.
- Please indicate whether you would like to have an appointment reminder and your preferred method (email or text).
- Please give me your current physical address and the name of your emergency contact.
- The Biographical History Form is really helpful in informing our work together and will take about 15 minutes (or more) to complete.

Each month, I send invoicing via email through my Practice Portal (Therapy Appointment/Psych Select). You can also log into your account at any time to make a payment. I prefer to collect all fees through my portal to minimize administrative costs. You have the option of putting a debit or credit card on file for your convenience. If you prefer, you can send a check or money order for services to:
